LOANS AND -PUBLIC WORKS-THE PERUVIAN-CHILIAN BONDS. LIMA, June 14 .- The Government have ef-

fected a loan with the firm of Sescan, Valdevaline & Co., fer \$4,000,000, at the rate of 46 pence exchange. The amount coaned is to be reimbursed from a further loan that is under treaty for twelve milhons. This heavy drain upon the treasury is owing to the exceeding number of public the treasury is owing to the exceeding number of public works. Proposals are invited by the Minister of Public Works for the rebuilding of the Custom House at Arica, and for a mole that will admit alongside vessels of a thousand tuns barden. The municipality of Linan have determined to open an industrial fair on the esth of July. The merchants of Caliao are urging the Government to finish the Caliao mole, and offering money to assist the work. About two leagues of the Arequipa Railroad are finished. The Pernyam Chilian bonds, issued in the United States illegally by Antonio Milian, have been ordered to be considered as having been issued by the Government, immsmach as the parties who received them did so in good faith. The amount issued was \$400,000 prinepally in New York. Milian is to be tried before the Criminal Court.

A scrious disturbance has broken out in the sugar district of Canete. A tract of land known as the "imperial" belonging to the Indians, and the only peter they have been able to hold deft them by the last Ineal, was some time ago appropriated to his own use by a planter named Ramos, and has led to frequent difficulties; but the Indians seeing that they were about to be despolled of their land, by a decision of one of the Courts, raised en masse, and have driven everything before them.

MESSAGE OF PRESIDENT PEREZ-RELATIONS WITH SPAIN-MEDIATION BY THE UNITED IFROM OUR OWN CORRESPONDENT.]

VALPARAISO, June 7.-Congress was formally opened on the 1st inst, with the usual ceremonies. President Perez's message was read in the Senate Chamber, and beyond its allusion to the question between Chiland Spain it is a very dry, uninteresting document. In speaking of Spain the President says: "The Governments epcaking of Spain the Presidentessys.

All they desired was that a just arrangement should be arrived at. Chill being desirous of following the hints of the two friendly Governments, and the benevolent offer of the United States, has given her adherson to a pact, signed in Lima in January last by the Alies, by which it has been agreed to arrange with the Spanish Government, through the mediation of the Cabinet at Washington, an armistice is proposed that cannot be broken by either of the contracting parties under two years notice, and during which the conditions can be discussed that would lead to a definite peace. BANKS AND RAILROADS-PRESIDENT MELGARE-JO'S ENTERPRISE. IFROM OUR OWN CORRESPONDENT.]

La Paz, May 30 .- In a Council of State it has been resolved that the contract awarded to Robert R. Brown, on the 3d of August last, to build a railread from Cobija to Potosi, shall be so modified that the contractor may prefer any other point on the coast rather than Cobija, excepting the Port of Mexillones. President Melcarejo proposes to employ his army during the present Winter in opening a direct wagon-road from La Paz to the important Valley of Potopoto. To accomplish this he will have to cut through a ridge of the Andes. This great work will give employment for two years to the army. Don Lorenzo Claro, representing Henry Meiggs, esq., has presented a petition to the Government soliciting the incorporation of a joint stock bank, with a capital of \$10,000,000, to be styled the Bank of Bolivia. REJECTION OF THE DARIEN CANAL TREATY-CORRESPONDENCE BETWEEN THE UNITED STATES AND COLOMBIA. [FROM OUR OWN CORRESPONDENT.]

PANAMA, June 23 .- The sessions of the National Congress terminated on the 24th ult. It will be remembered for its illiberality, and its grasping and narrow-minded policy in rejecting the Darien Canal treaty. During the early part of the session a resolution was introduced by the Executive, asking for instructions upon what basis a new treaty should be made. Just previous to adjournment, and after having been under previous to adjournment, and after having been under debate for some time, it was resolved by a vote of 17 against 7: "That the Senate of Plenipotentiaries do not deem it expedient to pass a law defining the basis of a contract for the excavation of an interoceanic canal." It was also agreed that the basis for a contract proposed by an English company be rejected. It will thus be seen that this Government is in no humor to make a treaty for the building of the canal. The Colombians suppose that the whole commercial world is so anxious that the canal be built that one Government will outbid the other, and an immense price will thus be obtained. It would be well if the United States would direct their attention to another route and entirely ignore the Isthmus of Panama. well if the United States would direct their attention to another route and entirely ignore the Isthmus of Panama. Nicaragua presents many advantages, and a canal across her territory would cost no more, and would be nearer than through Darien. It is true that a contract has been made by that Republic with a French Company, but the consent of Costa Rica, without which it cannot be built, has not yet been given. Beside it is not probable that this Company will build the canal, in view of the rivalry of the United States. Perhaps after awhile the stupid Colombian politicians will come to their senses, and gladly accept any terms proposed rather than lose forever the chance now offered for this Government to become a party to the grandest enterprise of this country.

become a party to the grandest enterprise of this country.

The political aspect of the country is as threatening as ever. President Gutterrez and his minions are bringing every device into requisition to prevent Gen. Mosquera from being elected. Troops are constantly in motion from one point to another to intimidate the people. Where all this will end I cannot say. The Government has made reclamations against the Cabinet of Washington for alleged violation of territory, in the year 1887, by United States troops in transit, who arrested a number of deserters of the United States steamers Waterce and Suwance, while lying in this bay. Correspondence on the subject between the two Governments is published in the official paper of Bogota. In his reply the Secretary of State, Hamitton Fish, disavows the act, and incloses a note from the Secretary of the Navy, in which the latter assures his Government that the officers of the ships-of-war in question had no intention of violating Colombian territory, and that they have since been removed from the Pacific Squadron. The Secretary concludes by depioring that any acts of United States officials should be interpreted as hostile to the sovereignty of the nation, and that in future every occurrence of a similar character with be avoided.

AN EARTHQUAKE GUAYAQUIL, June 10 .- On the afternoon of the 5th at 3:35 p. m., the shock of an eartquake was felt i re accompanied by an unusual rumbling noise. Two . hers also occurred on the morning of the 9th, the first 2.1 1:20 a. m., which was slight, but was followed by another at 1:40 a. m., lasting about three-quarters of a minute, which was exceedingly strong, and was also accompanied by a loud noise resembling thunder.

CENTRAL AMERICA.

BUATEMALA, HONDURAS, AND COSTA RICA.

IFROM OUR OWN CORRESPONDENT.1 PANAMA, June 23 .- Affairs in Guatemala are as unsettled as ever. Although Gen. Cerna was reflected in January, and duly installed on the 24th ult., his gov

ernment is by no means popular. There is a deep-seated feeling of discontent pervading all classes, and a change feeling of discortent pervading all classes, and a change is anxiously looked for. The clergy hold the reins of power, Cerna being but a more tool, and that a very plant one. I informed you in my last that Serapio Cruz and Rufino Barries had invaded the northern part of the Republic at the head of a large number of Aborigines. The Government has since issued flaming builetins of the utter rout and defeat of the invaders. Cruz is a noted guerrilla warrior, and his object is to draw his enemies into the mountain fastnesses and cut them up in detail. Hence his retreat.

The Congress of Honduras assembled on the 20th uit.

Hence his retreat.

The Congress of Honduras assembled on the 20th ult. A great deal of dissatisfaction exists among the people with the President of the Republic, Schor Medina. He is accused of being a nsurper. Dissatisfaction was so strong that ne determined to convoke a Constituent Assembly, which will meet on the 1st of August to decide the question, and declare if he shall continue in nower. Work on the Interoceanic Haiiroad, by the American Company, is said to be progressing. Some 12 miles have been surveyed and partially completed. About 2,000 workmen are employed on this work.

In Costa Rica, banishments and political perseculons are the order of the day. President Jimenez, since his triumph over Congress, is pursuing a very arbitrary and fatal course. He has removed a large number of the prominent officers of the army, and banished Gen. Blanco, who for many years was the Commander-in-Chief of all the forces.

A CHIME OF BELLS BAPTIZED, ANOINTED,

BLESSED, AND CHRISTENED. Buffalo, July 1.-St. Joseph's Cathedral was crowded to-day to witness the ceremony of blessing the new chime of bells. The bells were 43 in number, decorated with flowers and hung in an aisle of the Cathedral. The Right Rev. Bishops Kyan of Buffalo, McQuade of Rochester, Farrell of Hamilton, Ontarie, and Lynch of Toronto, Ontario, participated in the exercises. One hundred priests of all grades, in full robes, occupied scats in the sanctuary. The ceremonies commenced at 10 o'clock in the morning and closed at 20 o'clock in the afterneon. The Right Rev. Bishop Byan sang the Fontilical High Mass, and Rishop McQuade preached an appropriate sermon. The belis were first baptized with holy oil, incense burned under tigen, each blessed by Rishops McQuade and Lynch, and at the conclusion sounded three times by the Bishops and spotters and christiand. "Verbum Sanctum" was the opening choirs by a full choir. Baldis's Mass was executed with the effect and Rossin's Inflammatus sale sung with great power by a very sound. decorated with flowers and hung in an aisle of the Cathe-

OUT-DOOR SPORTS. THE TURF. THE LIVERPOOL RACES.

LIVERPOOL, July 1.—The races were continued to-day. The Liverpool Cup, of 200 sovereigns in specie, added to a sweepstake of 25 sovereigns each, was won by Mr. Bowes' b. c. The Spy, four years, by three quarters of a length from Mr. Sheldon's br. h. Fortunio, five years, second, who finished a length and a half ahead of Mr. T. Bussey's bl. g. Sportsman, six years, third. Two others were not placed. The betting was even on The Sry, 3 to 1 against Fortunio, and 8 to 1 against Sportsman.

The Stamford Plate (handicap) of 80 severeigns, for all

ages, was won by Mr. Fov's Patrician, 4 years, beating Mr. Barlow's Pantaloon, aged, second, and Mr. J. Johnstone's Good Hope, 3 years, third. No others ran. The betting was 3 to 1 ou Patrician, 4 to 1 against Pantaloon, and 10 to 1 against Good Hope.

RENSSELAER PARK RACES. TROY, July 1 .- This was the third day of the Rensselaer Park Association races. The first race was Rensselaer Park Association races. The first race was the postponed race of yesterday for a purse of \$1,200, for all horses that had never trotted better than 2.38; \$750 to be paid to the first horse, \$300 to the second, and \$150 to the third. Western New York won in three straight heats. Time—2:33, 2:34; and 2:32. Mace's Capt. Gill took the second money, and Borst's Old Put the third. George M. Patchen was distanced. In the second race for a purse of \$600, for all horses that had never trotted better than 2:50, \$350 to the first horse, \$150 to the second, and \$100 to the third. Lazzle Packer of Philadelphia won the third, fourth, and fifth heats, and the race. Time—2:40, 2:40, and 2:445, odd third's No Name took the second money, and Domrtey's John A. Griswold the third. The weather was fine, the track in good condition, and the attendance very large.

BASE-BALL.

ECKFORD VS. ROSE HILL OF ST. JOHN'S COLLEGE. Last month the Eckfords of Brooklyn visited Last mouth the Ecktords of Brooklyn visited St. John's Cellege and played the Rose Hill club. The game was a good one, at the close the score standing 10 to 6 in favor of the Ecktords. Yesterday the second game was played, and at 3 o'clock, when the clubs appeared on the ground, a goodly number had assembled. Mr. Swandell of the Mutual club was chosen umpire. The Eckfords winning the toss sent the Collegians to the bat, and after a tedious game, made so by the carelessness of the umpire, the Eckfords won by a score of 34 to 14. The Rose Hills played very nervously, all of them did considerable multing. Gallagher at third, Pendegrast at first, and villa behind made some pretty displays of fielding and catching. Christadoro in the center field made the pretiest and most difficult catch of the game. Trempe made the best batting score: Madden next. Against the Eckfords, but little muffing can be recorded; as a general thing their play was good, especially their batting. Hodes taking the lead, Pinkham and Patterson next. Sprague, the once famous pitcher of the Eckford champion alne, for the first time in over four years appeared on the field, and pitched the last four maings. With a little practice he will be as hard to hit as ever. Tracy, as usual, distinguished himself by fine catching. Jowet did not play up to his usual good mark. Allison at first was spiendid, not making a muff. Martin played right field during the most of the game, saving himself for the champlohship game on Saturday. Applendid is the full score: St. John's Cellege and played the Rose Hall club. The

GOTHAM VS. EMPIRE.

These veteran organizations met yesterday, for the first time this season, at the Elysian heids, Hobelsen. The game was a batting contest more than an exhibition of fielding, although several very good displays were made on cither side. Murphy, Miller, Howard, Higham, Kelly, and Voege of the Empires; and Beadle, Phelan, Goodspeed, and Chanfrau of the Gothams, deserve especial notice for general good play. BOATING.

THE FIVE-MILE RACE.

The five-mile boat race in seventeen feet working boats between Wm. Hays and Frank Bell, took place on the Hudson River opposite the Elysian Fields yesterday. Bell snapped his scull at the start, and another was given him immediately. Hays turned the stake boat off the brewery 45 seconds in advance, and maintained this lead to the score. Time, 46 minutes.

LABOR MOVEMENTS.

PROBABLE CLOSE OF THE CAP-MAKERS' STRIKE. The strike of the cap-makers is likely to end in an unexpected manner. A few days ago a letter was received by the Executive Board of the Cap-Makers' Union ceived by the Executive Board of the Cap-Makers' Union from a gentleman of this city, who announced his intention to open a large cap manufactory in this city, provided satisfactory arrangements could be made with the journeymen hatters. Vesterday a committee from the Union waited upon this gentleman to ascertain his views on the subject, which interview the committee report as satisfactory. It is probable that the new establishment will be opened in two weeks, and will give employment to 125 hands, male and female, who will be taken from the ranks of those now on strike, thus reducing the number out to a very small figure. The gentleman will pay the full Union price.

BEGGING DELEGATIONS. Trades unions are at present subject to much annoyance from delegations from various trades societies, in and out of the city, seeking money to support strikes. The delegation from the Trenton Potters, not content with the \$900 which they took out or this city a few days ago, have just returned for more, and a delegation from the Troy Colar Ironers' Union is also on a begging expedition. Among the workingmen and women now in trouble in this city, and who are nightly importuning their fellow-unionists for aid, are the Capmakers and German Framers.

At the meeting of the Clothing Cutters' Union, held inst-vening, \$25 was voted the striking Capmakers, and \$25 to the Framers. The Carpet and Furniture Clerks of Brooklyn will have a street parade this evening.

THE FRUIT-GROWERS' CLUB.

The New-York Fruit-Growers' Club met yesterday at 11 p m. Mr. Gregory, in the absence of the President, on motion of Mr. Fuller, was called to the chair. The attendance was unusually small. Several members brought specimens of raspherries, some of them very fine. After an examination of these was completed and the Club was called to order, Mr. Foster of Kingston spoke of some remarks made by Mr. Fuller at a former meeting in reference to the Romeyn Seedling strawberry, in which that gentleman claimed that this berry was identical with the Triomphe Gegand. Mr. Foster gave a detailed account of the manner in which the Romeyn Seedling was preduced in the garden of Mr. Romeyn. He contended that it was a distinct variety.

Mr. Fuller replied by saying he had not positively claimed at first that these berries were identical, but had asked the question of fruit-growers, "Could any one tell the difference between the Romeyn Seedling and the Triomphe DeGand!" and experienced cuitivators answered, that they were the same. The matter had been in this way settled, and he hoped the subject would be dropped. chair. The attendance was unusually small. Several

Mr. John L. Travis of Westehester County had on exhibition a seedling black raspberry, which he calls the "Westehester Black Cap," and for which he claimed superior qualities. The decision of those who examined and tasted the berry, was that it possessed no advantage as to size, flavor, or productiveness. Specimens of the "Doolittle" and "Thornless" were compared, and found equal, if not superior, in point of flavor.

Mr. Carpenter moved to refer the subject of raspberries to a Committee of three, and Messrs. Carpenter, Williams, and Foller were appointed.

Mr. Parsons was called on for a speech on ornamental gardening. After expressing the hope that the Fruit Growers' Club would be turned into something more comprehensive than it had heretofore been—a horticultural society, for instance, he delivered an entertaining address on landscape gardening and the best selection of evergreens. His favorite is the Rhododendron, which he thinks should be around every dwelling. At the close of Mr. Parsons's speech the Club adjourned.

THE CHAMBERS BRICK MACHINE.

A large party, consisting of capitalists, A large party, consisting of capitalists, builders, and architects, embarked on board the steamer General Sedgwick, yesterday, to the traverstray, for the purpose of examining the working of the machines of the New-York Steam Brick Company, situated near that place. After a pleasant sail up the Hudson, the party arrived at Haverstraw about 2 o'clock, when they proceeded to the various brick yards to examine the bricks and their process of manufacture by hand machinery. After a thorough investigation of the various klins, they visited the new yard of the New-York Steam Brick Company where one of Chambers's machines was in operation. At the extreme end of the vard, on a platform was a hopper which communicated with the cylinder, into which was shoveled the various kinds of clay used in the composition of brick. There were three mounds contaming blue and yellow elay and loam, which were mixed as they were thrown into the hopper. The clay is not tempered nor moistened, but thrown in the cylinder as it comes from the bank. The cylinder is shaped like the smoke-pipe of a wood-burning locomotive, inside of which is a shaft on which are attached 26 knives, which are shaped like a butcher's cleaver. These knives cut the clay, and force it toward the come at the end of the cylinder under a pressure of 60 tuns. The cone is made of chilled iron, the ensing of which is perfectly smooth. A steam pipe keeps the die hot, which enables the clay to work smoothly. At the end of the core is a rubber belt, or, which is carried the cone is the cut off wheel, which makes to revolutions a minute. At each turn the knife attached to the wheel cuts through the solid piece of clay forming the brick. Further on is a large box through which the brick pass, where they receive a certain quantity of fine sand, which prevents them from sticking together when backed on the barrows or on the yard. The bricks will not absorb so much moisture as by the old process, for the reason that they are so solidly pressed by the machine. After examining the builders, and architects, embarked on board the steamer

DEPARTURE OF GEN. SICKLES.

Our new Minister to Spain, Gen. Daniel E. Sickles, left for Havre yesterday, in the steamer Union of the Bremen line, which sailed from her dock at Hoboken at about 3 o'clock. The General is accompanied by

his mother, his daughter, and his four secretaries, Col. A. M. Raphael, J. L. De Peyster, A. A. Adee and W. E. Connover. After receiving a hundred hearty "good-speeds" from as many friends, the new Minister was on his way for Spain. A short distance down the Bay, the Revenue tug Jasmine, gaily decked with flags, steamed up along side the Union, and her passengers, all friends and admirers of the General, rent the air with good bye cheers. Then from the little brass howitzer aboard the tag there went forth a hoisier salute, and the little craft and her monster companion parted company. The passengers the tag were Gen. Eurns, Gen. H. E. Tremaine, Col. Fran Howe, Judge Barnard, Alderman Coman, Surveyor He ediet, Cel. Farnam. Major Pursty, and a few members the Press. The Jasmine was tendered to the essent par by Collector Grinnell in token of his respect for Ge Sickles, and as a courtesy toward the General's friends.

LARGE FIRE AT TARRYTOWN.

At about 10 p. m. on Wednesday a fire broke out in a frame house on Main-st., and, rapidly spreading, completely destroyed six buildings. While the flames were at their hight, the citizens stood around unable to do anything to check them, owing to the absence of fire do anything to check them, owing to the absence of fire cugines. The firemen of Nyack crossed the Hudson as quickly as possible, but were so long delayed that when they arrived their services were of but little use. The houses destroyed were owined by B. Mecker, B. Damman, Mrs. Fowler, and Mrs. Foster. Brown & Zall, butchers, who occupied the brick store at the corner of Main and Water-sts., saved most of their stock and fixtures, as did also the Masonic Lodge, who occupied the serond floor of the same building. The other buildings were of wood, and their occupants saved but little. They were occupied by B. Damman, Mrs. Vrecland, Wm. Vigilone, J. L. Wigant, and several private families, and were mostly miliasired. Last year, after the fire at Whippie's stables, a movement was started by the citizens to procure a fire engine, but owing to the disagreement of two committees the affair fell through.
